What you get

24/7, fully managed service from channel experts

A hands-on team manages onboarding, optimization, and ongoing feed management across thousands of global channels.

Faster time to market, fewer errors

Launch and scale across channels quickly with near-real-time syncs, proactive error resolution, and data governance.

Visibility and optimization

Take control of your data and create unique feeds per channel in a centralized dashboard.

Flexible pricing that scales with you

Costs scale with your catalog size—not your revenue—so you can grow efficiently and predictably.

Multichannel without the mess

Sell products on 2,000+ channel destinations and streamline operations at the same time.

Advertising

- Optimize for search and conversion with enriched attributes and bulk categorization
- Automatic updates for products, pricing, and optimizations
- Custom labels, A/B testing variables, and supplemental data joins

Marketplaces

- Clean, consistent, channel-ready listings
- Near-real-time sync for products, pricing, and inventory
- Guided onboarding from channel experts for quicker GTM
- Error resolution dashboard

Agentic commerce

- Early mover access to agentic checkout services with leading partners like PayPal and Google
- Deliver structured and unstructured data to AI search engines and shopping surfaces
- Create brand-aligned copy and fill catalog gaps with generative AI

Order orchestration

- Automatically sync orders between your sales channels and fulfillment solutions
- Flexible routing by SKU, location, availability, shipping method, and more
- Route to 3PL, dropship vendors, warehouses, stores, ERP, and beyond
- Integrate with your OMS or ERP via REST API or FTP

Better feeds, better results

In a Feedonomics customer survey, merchants reported...

19%

Improvement in ROAS on ad channels.

21%

Growth in channel revenue on marketplaces.

43%
